RECOVERY COLIVING REIMAGINED

SEEKHAVEN fills the void in the addiction recovery market by helping transitional living facility operators and their potential residents find one another, while offering levels of support and services that are unheard of in the industry.

THE PROBLEM: For decades, the operators of co-living recovery facilities have been run without the aid of technology and other resources that higher levels of services in the behavioral health space have enjoyed for years. Simply put, transitional living operators haven't had the support they need to attract residents and operate their facilities at scale.

Seekhaven AI powered mobile App integrates personalized "Seeker" experiences with personalized outcomes to promote engagement & commitment to recovery..

How We Solve it

For transitional co-living facility operators

Seekhaven provides access to a vast audience and access to life transformative services, via AI Technology, including:

- Technology enabled property management
- Pinpoint marketing
- Group Partnership Purchasing Agreements
- Payment processing
- Credit reporting
- Micro-lending
- Booking cancellation insurance
- Reporting capabilities (needed for regional funding support)
- Clear data reporting for grant applications and regional funding opportunities

How We Serve the Seeker

For potential residents using Seekhaven Platform

Seekers can find recovery facilities and resources needed, searching by type, services & location. With Seekhaven Membership, services include:

- Job placement through WOTC Grants
- Credit reporting and restoration
- Group purchasing agreements with bundled services, i.e. cable, electricity, water and trash
- On-demand legal services
- Clear data reporting for applications and regional funding opportunities
- Affiliate telehealth partnerships providing relapse prevention, CBT, and trauma therapy within the sober living and transitional housing environment.
